

Glen India Accredited 5 Star Ratings by Experts

Glen India is a premium brand in the category of kitchen appliances. Over years now Glen has delivered world class service and quality in its products, which has been recognized every now and then. The Right Choice Magazine has declared Glen Mixer Grinder GL 4022, as one of the best available products in the market, as judged on the bases of performance, pricing and product features.

The leader in premium kitchen appliances, Glen India has once again topped the performance charts, with its mixer grinder GL 4022, rated high amongst all the other brands. This rating has been given by **THE RIGHT CHOICE MAGAZINE**, which selected 33 models to the lab for testing the performance. The rating has been allotted on the bases of performance in mixing, chopping, grinding, convenience and noise.

Right Choices

A Right Choice mixer-grinder will mix, chop and grind quickly and effectively – with minimal effort required

84% GLEN GL-4022,
₹4,190

The Glen GL-4022 was one of only two models to get five stars in each of the main performance categories – mixing, grinding and chopping. For example, in our mixing test, the dosa dough produced was smooth and consistent. And it took just 41 seconds to make, compared with the 2-3 minutes required by some models on test. We did find the model a little noisy, though.

This Glen model comes with three jars and three removable blades, but the 0.5 litre

chutney jar has a fixed blade. There are three speed settings and a pulse speed option. An impressive design feature is that it comes with a 6-way coupler between the jar and the base unit to ensure a more secure fit – most other models have a 4-way coupler. Unfortunately, the power cable is shorter (134 cm) than flexes on other models, so you'll have to stay close to a power socket. It also doesn't come with non-slip feet.

The right choice lab experts are backed with more than 50 years of experience in product testing and test more than 2700 new products every year. The results are derived on the bases of price, running cost, usability, efficiency and reliability. As per the test conducted by Right Choice lab experts Glen Mixer Grinder GL 4022 chops and grind faster and finer. It just took it 41 seconds to mixing dosa dough as compared to other such models which took 2-3 minutes to do the same job. Also the dough was smooth and consistent.

As per the magazine Glen GL 4022 is a value for money buy. Glen Mixer Grinder has scored **84% with a "5" star rating** in mixing, chopping, grinding & convenience.

Glen GL 4022 jars are fitted with special oil seals to prevent the food to come in contact with the bush making it food safe. The impressive compact design and unbreakable lids made of polycarbonate make it a smart appliance. It has a powerful 750W motor with 3 speed settings for perfect grinding and mixing results. It comes with a 5 years warranty on the motor.

The right choice magazine has declared Glen Mixer grinder GL 4022 **"A RIGHT CHOICE"** for all the smart homemakers and thus recognized the Glen's efforts in giving a good quality product to the Indian consumers.
